

CHINESE ARE WORRYING.

Don't Know What They Are To Do About Entry Bonds.

There is woe in the ranks of the Chinese merchants of this city over the action of the collector of customs in refusing to accept them as sureties on entry bonds as heretofore since the 14th of June up to Friday of last week. As the sureties on the bonds are required first to be American citizens, and as the treasury department has refused to acknowledge Chinese who were accepted by everybody here as American citizens by right of the Organic Act, these men who have been accorded all the rights of American citizens are now treated as aliens. Many of the bonds and the surety on a great many others were made and signed by Chinese to all intents and purposes American citizens. All those surety bonds with Chinese on them, made since the first of September, are by virtue of the ruling of the collector of the treasury made on that date, void and illegal.

A good many of the bonds have been cancelled as the entries for which they were given have been made. The future is what is bothering the Chinese, as they will be precluded from acting as surety on bonds of their countrymen, and it is said by the custom house brokers that white men are very averse to going on the bonds of Chinese importers as surety. The law will not allow a customs broker to act as surety on a bond, and so the Chinese are worrying.

New Honolulu Town.

The new Sanitary Steam Laundry Company is building up quite a town at Queen and South streets. The buildings are now practically completed. Besides the big laundry there are 25 stores, 25 6-room cottages, with baths, hot and cold water and electric lights, and 100 rooms. An artesian well 250 feet deep has just been completed and a flow of two million gallons of water a day secured.

A complete outfit of laundry machinery was received on the Olympic and is now being installed. The laundry will be in operation by the first week of next month.

Cost of Government.

Washington, Dec. 5. - The secretary of the treasury today sent to congress the annual estimates of the expenses of the government for the coming year. They aggregate \$26,741,700, a slight decrease from the total estimate of last year. The appropriations for the present year are \$254,655,202. The estimates cover every branch of the government service. The war department estimate is \$176,658,345, and the navy department \$88,981,398.

One is Lipton's Challenger.

London, Dec. 3. - The mystery of the two racing yachts now being built on the Clyde after Watson's designs is explained. One is Lipton's challenger at the yards of Denny Bros., at Dumbarton, while the other, at Henderson's yard, is for the Prince of Wales, who is having the yacht built to have trial races with the Shamrock. When Lipton and party visited Mullside recently they had plans and models of two boats. Compared in profile and section the boats have a strong resemblance. Even in draught the difference is less than might have been expected from changes and rules under which they are built. When the boats start their trial races it is expected that the Prince of Wales will sail aboard his new boat in some of the matches.

A Cure For Chronic Diarrhoea.

"About five years ago I was troubled with catarrh of the lower bowel," says C. T. Chisholm, 484 Dearborn Ave., Chicago, "and although I consulted several eminent physicians who prescribed for me, I found their remedies failed to in any way relieve me, and the trouble almost became chronic. After suffering several months, I one day concluded to try Chamberlain's Colic, Cholera and Diarrhoea Remedy and I beg to assure you that I was most agreeably surprised to find after taking two doses of the remedy that I was completely relieved of the disease that had cost me so much trouble and annoyance. I am thankful to say that I have not suffered from it since." For sale by Benson, Smith & Co., general agents for Territory of Hawaii.
